---

Vitrolife is a global biotechnology/medical device Group that has business activities within the areas of fertility and transplantation. The Fertility product area works with nutrient solutions (media), cryopreservation products and advanced consumable instruments such as needles and pipettes, for the treatment of human infertility. There is also business to enable the use and handling of stem cells for therapeutic purposes. The Transplantation product area works with solutions and systems to evaluate and maintain organs outside the body in order to select usable organs and keep them in optimal condition while waiting for transplantation.

Vitrolife today has approximately 220 employees and its products are sold in almost 90 markets. The company is headquartered in Gothenburg, Sweden, and there are offices in USA, Australia, France, Italy, United Kingdom, China and Japan. The Vitrolife share is listed on NASDAQ OMX Stockholm, Small Cap.
