Resolution on the Election Committee for the next AGM (item 14)

The Election Committee proposes that the meeting approves that a new Election Committee for the 2018 AGM is appointed by the Chairman of the Board – at the latest by the end of the third quarter of 2017 – contacting the three largest shareholders or group of shareholders and ask them to each appoint one member of the Election Committee. If one of the three shareholders refrains from appointing a member of the Election Committee, the next shareholder in percentage terms is invited to appoint a member of the Election Committee. The term of office shall run until a new Election Committee commences its service.

The composition of the Election Committee shall be published no later than six months before the Company's AGM.

The responsibility of the Election Committee regarding the 2018 AGM includes proposing (i) a chairman of the meeting, (ii) the number of members of the Board, (iii) remuneration to the members of the Board, (iv) election of members of the Board and Chairman of the Board and (v) the process for appointment of a new Election Committee.

Resolution to authorize the Board to resolve to issue new shares (item 15)

The Board proposes that the AGM authorizes the Board, until the next AGM, on one or several occasions, to resolve to issue a maximum of 2,170,000 shares. The issue may deviate from the shareholders' preferential rights and may be carried out through a cash payment, a non-cash issue, through offsetting or in accordance with chapter 2, section 5, items 1-3 and 5 of the Swedish Companies Act. The purpose of the authorization is to allow the Company to issue shares to enable payment of the purchase price in the event of an acquisition of a company or business and be able to make private placements in order to acquire capital for the company.

If the authorization is fully exercised, it will correspond to a dilution of just under 10 percent of the shares and votes in the Company.

In order for this resolution to be valid, it requires the approval of at least two thirds of both the votes cast as well as the shares represented at the meeting.

Resolution to authorize the Board to resolve on acquisition of the Company's own shares (item 16)

The Board proposes that the AGM authorizes the Board, until the next AGM, on one or several occasions, to resolve to acquire the Company's own shares provided that the Company at no time holds more than 10 percent of the total shares in the Company. Acquisitions shall be made through market orders via Nasdaq Stockholm. Acquisitions on the Stock Exchange may only be made at a price per share that is within the quoted price interval for shares at any given time. The purpose of the authorization is to allow the Company to buy shares to adapt the capital structure of the Company to the Company's capital needs over time.

In order for this resolution to be valid, it requires the approval of at least two thirds of both the votes cast as well as the shares represented at the meeting.

Resolution on guidelines for remuneration to the executive management (item 17)

Remuneration for the CEO and other senior executives comprises a basic salary, variable remuneration, pension and other remuneration. All pension benefits are defined contribution plans. Variable remuneration is considered by the Remuneration Committee and decided on by the Board.

A. Fixed basic salary

The fixed basic salary of the CEO and the other senior executives is reconsidered each year. The division between basic salary and, where appropriate, variable remuneration shall be proportionate to the senior executive's responsibility and authority. The group of other senior executives currently consists of five people, one woman and four men. The composition and size of this group can change over time as a consequence of how the business develops.

B. Variable remuneration (Short-Term Incentive, STI)

The ceiling for the CEO's variable remuneration is a maximum of 50 percent of annual salary. For other senior executives the ceiling for variable remuneration is a maximum of 25 percent of annual salary. The variable remuneration of the CEO and the other senior executives is based on the outcome of a number of primarily quantitative parameters when compared with set targets. The quantitative parameters are related to the Company's sales and income (EBITDA). The total cost to the company of the total variable remuneration to the CEO and other senior executives must not exceed SEK 5,800,000 (including social security fees).

C. Long-term incentive programme (Long-Term Incentive, LTI)

With a view to interconnecting the interests of Company management with those of the shareholders and in order to encourage the acquisition of shares in the Company, a long-term incentive programme is proposed in addition to the annual variable remuneration described above. The long-term incentive programme would have the following principal components and would apply to senior executives and certain selected key persons in the Company:

- i. It is proposed that 8 employees over and above the senior executives, in total 14 Company employees, are included in the programme (the participants mentioned below).
- ii. If a participant, during a certain period of time and within the LTI framework, buys shares with his/her own funds via Nasdaq Stockholm up to a certain amount, the Company will match this through cash payment of the same net amount, i.e. compensating for the employee's marginal tax expense, in the form of a one-time payment (the "Matching Amount").
Each participant will be entitled to buy shares for an amount relative to the employee's responsibility and authority. The limits for each participant's Matching Amount are between SEK 50,000 and SEK 200,000. Participants must use the Matching Amount to acquire shares in the Company via Nasdaq Stockholm. Pursuant to an agreement between the Company and each participant, these shares must be held for at least three years.
- iii. If the conditions stated in item ii. are fulfilled, the Company shall make a further one-time payment corresponding to the Matching Amount, but without compensation for the employee's marginal tax expense (the "Performance Amount"). Participants shall use the Performance Amount to acquire shares in the Company via Nasdaq Stockholm. Pursuant to an agreement between the Company and each participant, these shares must be held for at least one year.
- iv. The criteria for payment of the Performance Amount shall be, amongst other things, that the participant is still an employee of the Company and that he/she has held the shares acquired in accordance with item ii. throughout the initial three-year period, and that the performance target set by the Board regarding the Company's earnings (EBITDA) per share during the financial year 2019 has been met.

- v. The total cost for the Company during the period regarding payment of Matching and Performance Amounts shall not exceed SEK 5,400,000 (including social security fees).

Miscellaneous

Notice of termination for the CEO shall be no more than 12 months and for the other senior executives three to six months. If the Company terminates employment, severance pay of no more than twelve months' salary is to be paid to the CEO. There is no severance pay for other senior executives when their employment is terminated.

The Board may deviate from these guidelines if in an individual case there are special reasons for doing so.

The Company has two share-related incentive programmes outstanding, as adopted by the 2015 and 2016 Annual General Meetings, respectively. Their conditions are essentially in line with what has been stated in section C (Long-term incentive programme) above. The total cost for the Company with regard to payment of the Matching and Performance Amounts for these two programmes shall not exceed SEK 10,000,000. The Company's outstanding commitment in relation to these two programmes comprises the Performance Amounts, which can total no more than approximately SEK 2,600,000.

The Company currently has no outstanding warrants programs.
